Att: Bill Hussel

Dear Bill:

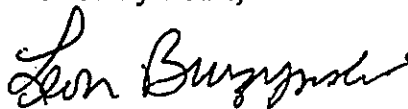

I am pleased to enclose a check in the amount of \$2,587.00 as a payment for the balance due on the masonry repairs to the fieldstone veneer on our home in Merton. We have attempted to locate a company to make those repairs for many years. All the masons we asked said they would be unable to duplicate the stonework that was part of the original construction. Your workmen certainly proved that craftsmanship is still available if one looks in the right places.

They replicated the color of the mortar in the joints as well as the white "beading" that makes the stonework so unique in such a way that it is impossible to tell what was patched and what was original. It is quite evident that your employees take great pride in their work. They even manufactured a special tool to apply the beading strip.

As a proud building tradesman of 37 years, I was especially impressed with the daily clean-up process. Every night when I came home, all the day's rubble was gone. I have always been a proponent of a neat and clean work site and your men did a superb job of picking up after themselves. I believe it was just an extension of the great pride they took in their work. They treated our home as though it were their own. Please relay our appreciation to them.

Carole and I are extremely pleased with the results of our contract with Chimney Doctors and would recommend you highly to any prospective customer you might have.

Sincerely Yours,

Leon Burzynski

P.S. We also appreciated the "early spring" discount!

Dear Chimney Doctors;

I want to thank the "Chimney Doctors Team" for making this repair! Especially, Percy, for all his professionalism and courtesy. It was great working with all of you.

Thanks again,
David D...

Dear Bill:

Enclosed is my payment for the rebuilding of the fireplace at the lake house.

I must tell you that the knowledge, workmanship and courtesy that you and your employee Doug provided set an example of how contractors' should service clients. From your first investigation of the suspected and visually obvious problems to the completion of the repairs was a satisfying experience.

The communication from Doug as to times and events and the job site cleanliness was impressive. Our remodeling work is almost complete and we look forward to enjoying our fireplace this fall and for many years to come.

Sincerely,

Donald V. Cohen, P.E.

Dear Sir or Madam:

Earlier this year your company completed the reconditioning of the four fireplace chimneys in our historic home. This was a major job, but one that your company's people did with great care and professionalism. The project supervisor, Doug, was particularly professional, cooperative and informative. The rest of the crew also deserves praise for their diligence and care they took of our home during the project. Most importantly, the results were exactly what we had hoped for.

I have and certainly will again recommend Chimney Doctors to anyone looking to have similar work performed. Thank you for your fine work.

Sincerely,

Dear Sir:

Several months ago we had extensive work done on our fireplace and chimney. Not only are we pleased with the workmanship - we want you to know the men that performed the work - are an asset to your company. They were very prompt, professional and friendly. One of their top priorities seem to be keeping the work area as clean as possible with the least amount of stress to us.

We have, and will continue to recommend your company.

Workers names were:
